Next Meeting

Our next meeting is on the 20th March when we will be having a talk about Architectural Photography by David Riddle. Therefore the theme for April will be architecture so that you have time to absorb the information and go out and take some images.

Please note that the theme for your March photos will be street art and graffiti. It was not thought that you would need any guidance on this topic but if anyone has any particular locations they would like to share that are good for this subject please let me know.
