

Group News

Maggie Hollins and Roz Wathen have now taken over as Groups Coordinators, working together to support Group Contacts.

We are here to assist with all aspects of opening a new group. If you have any ideas for a new group or you know someone who has, please get in touch as we can help to guide you along the way to setting up a group.

As and when we have information that will be relevant to you we will send out an information bulletin as appropriate.

If there have been any recent changes to your contact and/or group details, in terms of when, how, and where you meet or any other relevant information to your group, could you please email this to us in order that we can maintain up to date information on our website both for existing members and potential new U3A members to access.

Having been unable to hold either a Groups Contacts business or a social meeting over the last two years it is proposed that, in the autumn we will arrange an afternoon tea business meeting.

More details about this will be sent to you before too long.
